Dear Gentlemen

Enclosed for your review are two copies of the "Second Quarter RFCA Groundwater Monitoring Report for Calendar Year 2002, RFETS" Groundwater sampling for this quarter included 106 well locations, of which 24 were completely dry and 15 yielded only enough sample for a partial analytical suite. Two reportable Tier I analyses were recorded at Plume Extent wells 21098 and 23296 for carbon tetrachloride and trichloroethene, respectively. There were also 16 reportable results greater than Tier II Action Levels during this quarter's monitoring. No new monthly sampling is planned as a result of this quarter's results. This report also provides notification of elevated nitrite/nitrate and trichloroethene in Plume Extent wells 01697 and 30100, respectively. Please contact me at (303) 966-2282 or Scott R. Surovchak at (303) 966-3551 if you should have any questions or comments.

Sincerely,

Joseph A. Legare

Assistant Manager

for Environment and Stewardship
